

BONANZA NEWS IS 18 HOURS AHEAD

Morning newspapers have lost their prestige and the reader who would keep abreast of the times subscribes for the evening publications. The reason is simple. The morning sheets only publish a "rehash" of what has occurred the day previous. The world's events are transmitted by wire to the afternoon papers, 18 hours in advance of the morning publications, so why wait this long period to ascertain what is taking place in this old world. The Bonanza invites comparison, both as regards local and telegraph news.

Work of dragging the proposed cutoff, which will have a length of about 17 miles, will be instituted immediately by the Mineral county commissioners, and it will only be the matter of a short time now until the heavy grades that have been a bane to motorists will be a thing of the past. The proposed cutoff starts about half way between Crow Springs and Summit and turns to the northwest, crossing dry lake on the east side, and opposite McKay City on the east. It then continues northwest and connects with the road at Betties wells, shortening the distance by several miles, and cutting out all grades.

Nye county has promised assistance from this end of the line in view of the fact that Esmeralda county is not in a position to help by reason of lack of funds. The expenditure by this county will be comparatively small.

NEVADA HORSES WINNING GOOD EASTERN PRIZES

Wingfield String Fast Animals Giving Good Account of Themselves on Tracks.

That the performance of horses from the Nevada stock farm on the eastern tracks this season is stirring up interest in the east in the product from George Wingfield's stable is indicated by New York papers which comment freely on the success of the Wingfield horses, Sea Tag and Blue Hawk, on the Jamaica track.

The New York Globe and Commercial Advertiser, in a recent issue states that "The English stallion Atheling 2d, which has been brought into the racing spotlight by the successes at Jamaica of the fast two-year-olds, Blue Hawk and Sea Tag, is away out in front in the stallion's race for primacy in the string of two-year-old winners. Since January 1, eight sons and daughters of Atheling 2d, which is standing at George Wingfield's Nevada stock farm near Reno, have won—Melachino, Erase, Lady Myra, Faber, Tule, Dan Hogan, Blue Hawk and Sea Tag."

The New York Mail in a recent issue declares that "breeding students of New York must direct their attention to Nevada. The events of the last two days at Jamaica make it imperative that the Far Western state be granted wider consideration as a breeding ground. George Wingfield's Reno ranch has produced two highly promising juveniles in Blue Hawk, a son of Atheling 2d out of Chocolate Lady and Sea Tag, a daughter of the same sire out of Suavita. Both have walked home over colts and fillies which had earned smart reputations by morning trials."

The paper gives a brief history of the Nevada stock farm and predicts that the Wingfield horses will stand high in Eastern racing circles.

MOSCOW BEGINS SHOWING MUCH REAL ACTIVITY

Great Repair Campaign of Old Structures Is Started and Country Is Prospering.

(By Associated Press) MOSCOW, April 22.—Moscow is beginning to show some building activity. After nearly six years, during which practically every private building and some public institutions were permitted to fall into disrepair, both the soviet officials and private individuals are now in the throes of a repair campaign.

The hotel where most of the foreigners coming to Moscow are housed and which six months ago, was a nightmare of dirt, vermin and lack of service, has just been renovated and is to be put back on a pre-revolution basis.

Guests, long accustomed to carrying their own water, brewing their own tea and cooking their own food in their rooms, now are becoming accustomed again to the magic use of the push button. Elevators are to run, linen to be provided and the campaign against vermin is on in full swing.

To encourage repair of apartment buildings and detached dwellings, thousands of which have fallen into such a state of unrepair that they have been abandoned entirely, the Moscow soviet has decided to utilize private enterprises. Persons or corporations who will take over and repair these structures are given 10-year rent free leases on them and may rent them to whom they please and for what sums they please. They may transfer their leases to other persons and in these houses no limit is placed upon the amount of space any one person may occupy.

Muscovites, who for the past three or four years, have been huddled in tiny rooms allotted them by the government, are gradually moving into new and more spacious quarters, if they have sufficient funds to repair them.

Five prizes will be distributed during 1922 and the total sum paid out to each winner will be 122,482 kronor (about \$32,000).

Multnomah county contributed \$626,390, and received net dividends from May 15, 1917, to May 1, 1922, a total of \$759,011. Clarke county contributed \$404,435, and has received \$506,219.
